

# CAWU STCA CANADA **UPDATER**

September 2018

## *Next Steps*

Greeting CAWU Supporters,

We are advised that the IAM's recent proposed agreement was firmly rejected by the membership.

Since then, many individuals have approached CAWU asking if we can make another attempt to rescue them from the IAM. It is possible, and until you have ratified a new collective agreement, you remain in the "open period."

We have consulted many of you and it appears that there is real support for restarting the CAWU organizing effort. In order to determine if there is broad-based support for a new campaign, CAWU's organizers will be reaching out to supporters in the coming days. A new campaign would require all supporters to sign new cards, and to pay a new \$5.00 initiation fee.

As you may know, CAWU is appealing the Labour Board's recent decision to reject CAWU's application to become the union for the pre-board screeners in Toronto. Pre-board screeners demonstrated strong support for CAWU and we believe you were unfairly denied your chance to vote for change. We remain committed to our legal fight and will see this through to the end.

A copy of that appeal can be found on the [CAWU website](#). CAWU's legal team has made its written submissions and is following the deadlines set out by the court as this matter proceeds.

Many thanks for your continued support and patience.

Sincerely,

CAWU Executive
